abstract has been received. I do not quite see why all the Dtt's should be dealt with together in a matter like this.

This work has been completed and an excess expenditure already incurred. Unless some more convincing reason for delay can be given, the grants to be

made for this Dtt (accg to Dy C's request) should be disposed of separately without further delay. 

21/3/902

With reference to the above remarks of the Secretary, it is submitted that grants applied for on account of sanitary improvement for

for 1900-1901, could not be sanctioned before the end of the year for want of certain particulars and statements of expenditure actually incurred in the year in anticipation of sanction, were called for from all Districts, in view to sanction being accorded thereto. In accordance with this requisition, the Deputy Commissioner of Chitaldrug submitted a statement showing the excess expenditure incurred on the work as also on others during the year. As it is considered unnecessary to trouble the Dewar for each reference requiring formal sanction to an expenditure already incurred, the instructions of the Assistant Secretary was sought for and obtained for collecting all replies together and submitting a memo once for all as is generally done in such cases. To H. V. Nanjundayya Esquire M.A., M.L.
Secretary to the Government of His Highness
the Maharaja of Mysore - General and
Revenue Departments Bangalore

Sir,
With reference to Government Proceeding
no 8922 dated 26th November last. Stating
LT 93.9;
that the revised estimate for repairing a well
at Kamalapur, Hanthar Sub District cannot
be sanctioned from Local Funds General and
directing that to meet the excess expenditure
of Rs 376/- a reappropriation statement
out of the District Fund Budget of the current
year be submitted. I have the honor to
state that the original estimate for the
work in question amounting to Rs 1441/-
was sanctioned in June 1898 out of Local
Funds General and payments amounting
to Rs 1398-4-6 were made for work
done up to end of June 1901. For reasons
explained in the Column of remarks in the
comparative statement which accompanied
my letter no 435 dated 18th November 1901,

9

an excess expenditure of Rs 376/- was incurred and the work completed in June 1901. The Contractor has now to be paid Rs 418.11.6 in settlement of his Bill.

To meet this excess expenditure it is not possible to make any reappropriation out of the District Fund or out of the Current year, as the works provided for under the heads B I. and II original works and repairs to be executed by the Revenue Department" (Vide details given in the appendix to Government Proceedings no $\frac{6255-97}{2710-1902}$ dated 24th October last) have

been commenced, and the closing balance is already much below the prescribed minimum. Under these circumstances, I beg to recommend that a grant of Rs 419/- maybe sanctioned from Local Funds General, to enable me to settle the Contractor's claim on account of the Kamalapura Well. With this object, a provision of Rs 419/- has been made for this work in the list, submitted with my letter no 445 of this date, of works which it is proposed to undertake from the allotment of Rs 5000/- from Local Funds General referred to in Government Proceedings no $\frac{4275-82}{2793-97}$ dated 20th September 1902.

I have the honour to be,
Sir,
